C V HARI HARA NANDAN

vedavyas2410@gmail.com | +91 8309443594 | LinkedIn | GitHub

CAREER OBJECTIVE

Computer Science and Data Science student with strong foundations in Java and React. Proven track record in building web applications and integrating ML models, with hands-on experience in AI-assisted development. National-level hackathon winner seeking a Software Development Internship to contribute to innovative, high-impact projects.

EDUCATION

G Pulla Reddy Engineering College

B.Tech in Computer Science & Data Science | GPA: 8.7 / 10.0 | Aug 2023 – Present

Relevant Coursework: Data Structures, Web Development, Machine Learning, OOP, Database Systems

Sri Venkateswara Junior College

Board of Intermediate (Class XII) | GPA: 9.35 / 10.0 | Aug 2021 – May 2023

Sri Venkateswara High School

Board of Secondary Education (Class X) | GPA: 9.9 / 10.0 | Sept 2020 – May 2021

PROJECTS

AgriTech Smart Farming Platform

React · JavaScript · Machine Learning · Random Forest · Linear Regression · AI

- Built a React-based platform empowering farmers with data-driven crop insights and agricultural decision support.
- Integrated Random Forest and Linear Regression ML models to generate accurate predictive farming recommendations.
- Bridged the gap between farmers and consumers by enabling informed, real-time agricultural decision-making.
- **Impact:** Won 1st Place at a National-Level Hackathon for this solution.

Thomas Travels — Driver Management System

Java · OOP · Collections Framework · JDBC · MySQL

- Architected a modular driver management system using core OOP principles to simulate real-world travel operations.
- Engineered efficient search and filtering mechanisms using the Java Collections Framework, optimizing data retrieval.
- Built performance analytics to identify category distribution and track maximum distance-traveled drivers.
- Improved code reusability and maintainability through structured method abstraction and clean class design.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript

Frontend: React.js, HTML, CSS

Tools & IDEs: Eclipse, MySQL, JDBC, Git

Concepts: OOP, Data Structures, REST APIs, Machine Learning

Other: AI-assisted Development (Vibe Coding), Agile Collaboration

CERTIFICATIONS

Java Programming – Udemy — Core Java, OOP & Data Structures

Java Programming – FrontLines Media (FLM) — Java Fundamentals & Application Development

Java Programming – NPTEL (IIT/NIT) — Problem Solving, Algorithms & Programming Paradigms

ACHIEVEMENTS & HACKATHONS

- **1st Place — National-Level Hackathon:** Built an AgriTech platform enhancing agricultural decision-making through ML-powered insights.
- **3rd Place — Intra-College Vibe Coding Hackathon:** Developed a fully functional web application under strict time constraints.
- **3rd Place — Inter-College Technical Competition:** Conceptualized and delivered an innovative web-based solution.
